

Name of research institute or organization:

Mammut Sports Group

Title of project:

Test-station for outdoor materials

Project leader and team:

Lars Paschek, project leader

Daniela Schürmann, Gabi Gratwohl – responsible for material

Project description:

We test the materials of apparell, hardware and footwear products regarding the performance against temperature, alpine sun, rain and all the other influences in the alpine surrounding. To do that we installed a test station end of 2010 at the top of the Junfrauoch station and change the materials in every half or whole year.
